RESEARCH STUDY
PARTICIPANTS NEEDED!

Do you want to try to do some code review using Tablet PC software? On top of the fun you'll get a free 10$ Tim Horton's gift certificate! Join our study!

You'll be asked to review several (relatively simple, 2nd semester level) pieces of code using a Tablet PC, a web form, and printouts. You'll learn which you prefer and at the same time help us improve all three methods!

Time needed for study is about one hour and can take place in the TEL building after 18:00 weekdays or any time on weekends. Pick a day/time that works best for you and let me know!
